Profile

Backend Software Engineer with over 2 years of experience in ASP.NET Core and C#. Skilled in building scalable RESTful APIs, working with SQL databases, and improving application performance. Experienced in clean architecture, performance optimization, and collaborating within cross-functional teams across the full development lifecycle.

Awards

Hackathon Winner — 1st Place, Jet Academy 2024
Developed the backend and core APIs of an Airbnb-inspired platform during a 12-hour hackathon.

Skills

Core Skills

- **Programming Languages:** C#, SQL
- **Backend Development:** ASP.NET Core, REST APIs, Entity Framework Core, MVC, JWT Authentication
- **Databases:** Microsoft SQL Server, PostgreSQL
- **Architecture & Principles:** OOP, SOLID, Clean Code, CQRS, Repository Pattern, Strategy & Factory Patterns
- **Testing & API Tools:** Swagger (OpenAPI), Postman, Unit Testing, Integration Testing
- **Version Control:** Git, GitHub

Additional Experience

- **Frontend Basics:** HTML, CSS, SCSS, Bootstrap, Responsive Design, Figma
- **Messaging & Integration:** RabbitMQ (basic experience)
- **Data Access & Protocols:** Dapper, SOAP
- **Frontend Frameworks:** JavaScript, DOM, React, Next.js, TypeScript, Tailwind CSS, jQuery
- **Databases (Exposure):** Oracle SQL (PL/SQL), MongoDB, Redis
- **Other Tools:** SVN, TFS

Projects

Kovser Hediyyeler , ASP.NET Core | Onion Architecture | CQRS
Develop a RESTful backend API using ASP.NET Core with Onion Architecture and CQRS, including JWT-based authentication, role-based authorization, and core e-commerce features. Apply database transactions to ensure consistency, built as a self-directed learning project focusing on clean architecture and scalability

To-Do List , ASP.NET Core | Dapper | SQL
A To-Do List backend API was built using ASP.NET Core and Dapper with SQL Server, implementing full CRUD operations. The project was designed to gain practical experience with raw SQL queries and lightweight ORM techniques.

Sinxteen Clothing , ASP.NET Core MVC | C# | SQL
A clothing e-commerce web application was developed using ASP.NET Core MVC. The project includes product catalog, categories, shopping cart, and order management features integrated with SQL Server. It was built to practice MVC architecture and clean coding principles.

Professional Experience

Teacher Assistant , Code Academy Assist students in practical C# and SQL sessions, reinforce backend concepts through exercises, and provide support to overcome technical challenges.	12/2025 – 07/2026 Baku, Azerbaijan
Instructor , DTech MMC Taught backend development from scratch, delivered practical ASP.NET Core sessions, and instructed students through hands-on projects and problem-solving in core backend concepts.	08/2024 – 01/2026 Remote
Backend Developer , Hoxmed Lead backend architecture for a complex platform, ensuring scalability and maintainability, and mentor developers to improve code quality and follow best practices.	01/2025 – Present Remote
Backend Developer , GUYS Group Lead and mentor backend team, ensuring scalable architecture and code quality	12/2024 – 05/2025 Baku, Azerbaijan
Full-Stack Developer Intern , Jet Academy Created UI design in Figma and delivered the complete backend, frontend was delegated to another developer	10/2024 – 12/2024

Education

Non-Degree C# based Full-Stack Development , Jet Academy	04/2024 – 10/2024 Baku, Azerbaijan
Master of Science Information Systems and Technology Engineering , Azerbaijan State Oil and Industry University	10/2021 – 06/2023 Baku, Azerbaijan
Bachelor of Science Computer Sciences , Azerbaijan State Oil and Industry University	09/2017 – 07/2021 Baku, Azerbaijan

Certificates

Unit Testing for C# Developers	Security and Authentication
Deployment and DevOps	C# based Full-Stack Development Jet Academy, 2024, with honor
